

## Wholesale Acquisition Cost Information for Colorado Prescribers

### OTIPRIO<sup>®</sup> (ciprofloxacin otic suspension) 6%

Colorado law requires prescription drug manufacturers to disclose in writing to Colorado prescribers the Wholesale Acquisition Cost (“WAC”) of marketed drugs when engaging in prescription drug marketing. This disclosure provides the WAC price for OTIPRIO (ciprofloxacin otic suspension) 6%.

NDC	Wholesale Acquisition Cost*
69251-201-01	\$283.20

The price paid by patients to acquire the product is often different than the WAC price listed, and most patients do not pay WAC. How much a patient will pay will depend on the patient’s insurance coverage. To find out the exact cost of a prescription, patients should contact their health insurance company or preferred pharmacy.

\*Pricing as of December 2020. These prices are the WAC prices, which represent the manufacturer’s published catalog or list price for a drug product to wholesalers as reported to third-party drug pricing publishers. WAC does not represent actual transaction prices and does not include prompt pay or other discounts, rebates or reductions in price. The prices listed do not imply safety or efficacy of the product, and no comparisons should be made.

NOTE: Colorado law also requires manufacturers to provide the names of generic prescription drugs from the same “therapeutic class” as the marketed products. Colorado defines “therapeutic class” as “a group of similar drugs that have the same or similar mechanisms of action and are used to treat a specific condition.” There are currently no generic prescription drugs in the same “therapeutic class.”
